Managed by M&G Securities Limited

Objective and investment policy

The fund aims to track the FTSE World Europe ex UK Index*.

Other investments: Generally, less than 5% is held as cash or assets that can be turned into cash quickly.

Use of derivatives: The fund is typically directly invested in company shares but may make limited use of derivatives to reduce risk and costs.

Strategy in brief: The fund is designed to track the performance of the FTSE World Europe ex UK Index, which represents a broad spread of European company shares. It typically has around 375 holdings, including all of the shares of the largest 100 companies in the index, as well as the shares in a selection of the remaining smaller companies to ensure that the index is replicated as closely as possible.

Benchmark: FTSE World Europe ex UK Index

The fund manager takes a passive approach to investing. The index is a constraining benchmark for the fund. The fund aims to track the performance of the index. The fund's portfolio is therefore unlikely to significantly deviate from the index's constituent parts.

For unhedged share classes, the benchmark is shown in the share class currency.

Risk and reward profile

• The above risk number is based on the rate at which the value of the fund has moved up and down in the past. It may not be a reliable indicator of the future risk profile of the fund.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus.

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.50%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The above ongoing charge figure is an estimate of the charges because of a change to the charging structure with effect from 1 August 2019.

The ongoing charge figure may vary from year to year and excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.50%. The fund's annual report for each financial year will include details on the exact charges made.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature
