

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## M&G Gilt & Fixed Interest Income Fund

a sub-fund of M&G Investment Funds (2)

Sterling Class A – Income shares ISIN no. GB0031107807

Managed by M&G Securities Limited

### Objective and investment policy

**Objective:** The fund aims to provide income and capital growth.

**Core investment:** At least 70% of the fund is invested in bonds with various final repayment dates issued by the UK government.

**Other investments:** The fund also invests in bonds issued by governments of other developed countries such as Europe and US, government-related institutions and companies. The fund may also hold cash or assets that can be turned into cash quickly.

**Use of derivatives:** Derivatives may be used to invest indirectly in core and other investments, and to reduce risks and costs.

**Strategy in brief:** The fund manager has the freedom to decide which investments to hold in the fund, based on the assessment of factors such as interest rates, inflation and economic growth.

**Benchmark:** FTSE Actuaries UK Conventional Gilts All Stocks Index

The fund manager makes active investment decisions for the fund. The benchmark is a comparator which can be used to measure the fund's performance.

For unhedged share classes, the benchmark is shown in the share class currency.

#### Glossary terms:

**Bonds:** Loans to governments and companies that pay interest.

**Index-linked bonds:** Bonds where the value of the loan and the interest payments are adjusted in line with inflation until they are fully repaid.

**Derivatives:** Financial contracts whose value is derived from other assets.

#### Other information

The fund may invest more than 35% in securities issued or guaranteed by the UK government. The investment may be combined with the use of derivatives in pursuit of the fund's investment objective.

You can buy and sell shares in the fund on any business day. Provided we receive your instructions before 12 noon, shares will be bought at that day's price.

Any income from the fund may be paid out to you quarterly.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

### Risk and reward profile

• The above risk number is based on the rate at which the value of the fund has moved up and down in the past. It may not be a reliable indicator of the future risk profile of the fund.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

#### The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
  - The fund may use derivatives to profit from an expected rise or fall in the value of an asset. Should the asset's value vary in an unexpected way, the fund may lose as much as or more than the amount invested.
  - Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.
  - The fund invests mainly in one type of asset. This type of fund can experience larger-than-average price changes when compared to a fund which invests in a broader range of assets.
  - In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
  - The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Further details of the risks that apply to the fund can be found in the fund's Prospectus.

## Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.55%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The above ongoing charge figure is an estimate of the charges because of a change to the charging structure with effect from 1 August 2019.

The ongoing charge figure may vary from year to year and excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.55%. The fund's annual report for each financial year will include details on the exact charges made.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

**For more information on charges, please see the relevant sections of the Prospectus at [www.mandg.co.uk/literature](http://www.mandg.co.uk/literature)**

## Past performance

- Past performance is not a guide to future performance.
- The past performance calculation excludes UK taxes from 01 December 2016. It does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the charges section.
- The Fund launched on 09 December 1980 and the Sterling Class A Income share class launched on 09 December 1980.
- Past performance is calculated using Sterling Class A Income shares.

## Practical information

The depositary is NatWest Trustee and Depositary Services Limited.
