## M&G North American Dividend Fund

a sub-fund of M&G Investment Funds (1)

Sterling Class A – Income shares ISIN no. GB0030926736

Managed by M&G Securities Limited

### Objective and investment policy

The fund aims to increase income distributions over five years or more and grow capital.

**Core investment:** At least 70% of the fund is invested in the shares of North American companies with the potential to grow their dividends over the long term.

**Other investments:** Generally, less than 10% is held as cash or assets that can be turned into cash quickly.

**Strategy in brief:** The fund manager has the freedom to decide which investments to hold in the fund. The focus is on companies with the potential to grow their dividends over the long term, although dividend yield is not the primary consideration for stock selection. The fund invests in company shares from across a wide range of sectors and company sizes. The fund manager selects stocks with different sources of dividend growth to build a fund that has the potential to cope in a variety of market conditions. When attempting to grow distributions, the fund manager's main focus is on delivering an increase in US dollar terms.

**Benchmark:** S&P 500 Index

The fund manager makes active investment decisions for the fund. The benchmark is a comparator which can be used to measure the fund's performance.

For unhedged share classes, the benchmark is shown in the share class currency.

#### Glossary terms

**Dividend yield:** Annual income distributed as a percentage of the share price.

#### Other information

You can buy and sell shares in the fund on any business day. Provided we receive your instructions before 12 noon, shares will be bought at that day's price.

Any income from the fund may be paid out to you quarterly.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

### Risk and reward profile

• The above risk number is based on the rate at which the value of the fund has moved up and down in the past. It may not be a reliable indicator of the future risk profile of the fund.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

#### The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- The fund holds a small number of investments, and therefore a fall in the value of a single investment may have a greater impact than if it held a larger number of investments.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus.

## Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.20%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The above ongoing charge figure is an estimate of the charges because of a change to the charging structure with effect from 1 August 2019.

The ongoing charge figure may vary from year to year and excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 1.20%. The fund's annual report for each financial year will include details on the exact charges made.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.
