

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

M&G Charity Multi Asset Fund

Sterling Class – Accumulation units ISIN no. GB00BK1KFR05

Managed by M&G Securities Limited

Objective and investment policy

The fund aims to provide:

- a level of capital growth and income that is higher, net of the ongoing charge figure, than that of a composite index over any five-year period; and
- an annual yield of at least 3%.

The composite index is 45% FTSE All-Share Index, 30% MSCI ACWI (ex UK) Index, 12.5% ICE BoAML 1-15 Gilt Index, 12.5% ICE BoAML 1-15 Non-Gilt Index.

There is no guarantee that the fund will achieve its objective over this, or any other, period and investors may not get back the original amount they invested.

Core investment: The fund invests in other funds, typically managed by M&G, to gain exposure to a mix of assets including company shares, bonds, property and cash or assets that can be turned into cash quickly. These assets may be from anywhere in the world, including emerging markets. The fund tends to have a bias towards underlying funds with an income focus to achieve its investment objective.

The fund typically invests indirectly as follows:

- 60-90% in company shares;
- 0-40% in bonds and cash;
- 0-15% in other assets.

Derivatives: The fund invests in funds that may invest via derivatives. The fund may use derivatives to reduce the risks and costs of managing the fund.

Strategy in brief: The fund employs a flexible approach to the allocation of capital between different types of assets in response to changes in economic conditions and asset values. The investment approach combines research of asset values over the short to medium term with analysis of market reactions to events, to identify investment opportunities. The fund manager seeks to respond when asset prices move away from a reasonable sense of 'fair' value due to market reactions to events.

Benchmark: A composite index comprising:

- 45% FTSE All-Share Index
- 30% MSCI ACWI (ex UK) Index
- 12.5% ICE BoAML 1-15 Gilt Index
- 12.5% ICE BoAML 1-15 Non-Gilt Index

The benchmark is a target which the fund seeks to outperform. The composite index has been chosen as it best reflects the scope of the fund's investment policy and is used solely to measure the fund's performance. The target yield has been chosen as it is an achievable target given the fund's investment policy. The benchmark and target yield do not constrain the fund's portfolio construction.

The fund is actively managed. The fund manager has freedom in choosing which assets to buy, hold and sell in the fund within the constraints set by the objective and investment policy. The fund's holdings may deviate significantly from the benchmark's constituents.

You can find more information about the objective and investment policy of the fund in the Prospectus.

Other information

You can buy and sell units in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

• The above risk and reward indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 5 because its simulated Net Asset Value has shown medium to high rises and falls in value historically.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- For any past performance shown, please note that past performance is not a guide to future performance.
- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund invests in other funds, which are subject to the risks associated with the type of assets held in those funds.
- Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- Further risk factors that apply to the fund can be found in the fund's Key Investor Information Document (KIID).

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |
| This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. | |
| Charges taken from the fund over a year | |
| Ongoing charge | 0.50% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | None |

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The above ongoing charge figure is an estimate of the charges because of a change to the charging structure with effect from 1 August 2019.

The ongoing charge figure may vary from year to year and excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.50%. The fund's annual report for each financial year will include details on the exact charges made.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature
