### Important note

\* If you are invested in the M&G Property Portfolio or the M&G Feeder of Property Portfolio, the annual charge will only contain costs of running the fund. Expenses related to managing the properties within the fund will be disclosed separately (in the PER). This does not change the overall amount you pay to invest in the fund, but it will help you to compare costs more easily with other property funds.

\*\* The ongoing charges figure used to include the property related expenses (PER) which will now be disclosed separately.

The comparison of the charges has added back the latest PER to compare on a like for like basis and show the savings from the changes to the fund's charges.
